NO CHANGES IN PRESENT PLANS.

Declaration of Dividend Sends the | Director Antone Eilers of the A. S. & R. Co. Talks of New Smelter.

PYRITIC PLANT IS DOUBTFUL

Strike in Old Susan Option on Uncl. Sam-Alaska Meeting-Dexter Shipment.

Director Antone Eilers of the Ameri can Smelting and Refining company plant at Murray, returning last evening. Mr. Eilers is also a member of the executive committee, which reders final decision in all the various matters connected with the company's operating department of the great concern, of which Mr. Eilers is also a member. The gentleman is accompanied by the company's advisory en gineer, Mr. Cyrus Robinson and Mr August Raht, who has charge of the new smelter now in course of construction in this valley. Mr. Eilers' visit at this time was for the purpose of decid-ing upon any changes in the general plan of the smelter. The outline as submitted by Mr. Raht has been found so complete and perfect that Mr. Ellers says that excepting a few minor details no changes will be made. Special attention is being given, Mr. Ellers says, to labor saving The company hopes by this means to encourage the mining of lower grade ores throughout the vast territory covered by its plants. It is stated that the benefits of the new methods will in this way be shared with the miners, the maintenance of its smelter fires.

PYRITIC PLANT DOUBTFUL. Regarding the rumored changes to be made at the old Germania smelter when the new plant is put in commiswhat would be done. From the con-versation this morning the "News" reporter concluded that the installation of a pyritic plant is improbable. Mr. Ellers says he is very doubtful whether t would prove economical for the comsany to handle copper ores in that way. t is necessary to handle the stuff three times. First of all the ore is concentrated to matte. It is then reduced to lister copper and last of all the various metals are separated in the refin-ery. The pyritic process in Mr. Eilers' opinion is specially adapted to saving harges when a plant can be built at the mine. While it is possible that the A. S. & R. company may put in a couple of pyritic furnaces the question has not been decided. Mr. Effers expects to leave for Denver

DAVID EVAN'S OPTION. Is Considering Taking it Up and Forming a Big Company.

Regarding the fate of his option on the Uncle Sam, Richmond Anaconda and other properties bonded from Jesse Knight, David Evans said today that he will probably decide to take up the option within the next two weeks. Mr. evans is considering the proposition of forming a big company to operate the valuable ground covered by the option: Mr. Evans considers it the mos important mineral deposit in Tintic and there is no doubt that a fine record would be made in dividends by such a ompany. The group will take in the ichmond Anaconda claims, thus formng a group of nine or ten claims.

Dexter Output for April.

The April output of the Dexter-Tus arora Mining company reached the city yesterday in the shape of a bar of bullion valued at \$8,700, and a lot of cyanides weighing 196 pounds and valued at \$15 per pound, or \$2,740. The total value of the clean up is about \$11,500, which compares favorably with the output of the past few months. A material increase is looked for later in the year, or as soon as the Tuscarora vein is tapped. The ore there is said to be very rich and by mixing it with the lower grade Dexter ore, the management expects to produce an average that will pay dividends.

Alaska May Secure Greater Depth.

A meeting of the directors of the or this afternoon for the purpose of considering a change in the ran of development work. For some time past the company has been drifting north and south from the 450 level with encouraging results. The faces of both drifts are said to look good, but no paying bodies of ore have been encountered. Mr. Jake Bamberger was at the mine Sunday last for the purpose of examining the work done, and it is said that both he and Mr. Kirby, who went out with him, have decided that greater depth is all that is necessary to make a mine out of the Alaska. It is quite probable that it will be decided at the meeting this after-

Mining Deed from H. B. Cole.

Special Correspondence. Provo. May 14.—A mining deed has been filed for record from H. B. Cole and Alice D. Cole to the Oddie Mining company for the following mining claims situated in Tintic mining district: Juniata, Minnie, Argentines, Golden Treasure, and Annie Hurley. The consideration named is \$647. Twelve petroleum claims under the ames of Anna No. 11 to Anna No. 22, both inclusive, have been located by W. H. Hendrickson et al. The claims are situated about one-half mile north of the Colton R. G. W. railway depot.

Sacramento Dividend Declared. As foretold in last evening's "News" a dividend of \$5,000, or ½ cent per share, was declared at the meeting of the Sacamento Mining company yesterday af-ernoon. Payment will be made June the books to close on the 28th inst. The following officers and directors were elected to serve for the ensuing year: Gien R. Bothwell, president: A. Deal of Springville, vice president and R. E. McConaughy, secretary and These, with Fred J. Leon ard and G. S. Hanna of Blos lil., constitute the board of directors.

INTERNATIONALS LOWER.

London Sent Sharp Declines for Amer-Icans-Almost All Rallroads Lost -Bonds Moderately Active.

New York, May 14.-London sent sharp declines for American stocks this morning, extending to between 1 and 2 points in some cases. The opening here was lower for the internationals also, a number of those stocks falling a point. The United States Steel stocks shared in the depression. Gains in a number of industrials gave the opening a slight irregularity. Smelting rose 11/2. Trading was depressed and hesitating and operators appeared reluctant to speculate until Union Pacific displays more stability. After 11 o'clock prices broke sharply all around, led by Pacific, the common faling 7 points from the top price and the preferred 5. Missouri Pacific lost 6, St. Paul 5%, Rock Island and General Electric, American Smelting 4, Atchison 3% Amalgamated Copper, Sugar, Ilinois Central 31/2, and many others from 1 to The market became very dull on the rally, which ran from one to two points generally and reached over 3 in Missouri Pacific and Rock Island. Bonds were moderately active and

irregular. Amalgamated Copper recovered to 116%, but fell again to 115. Union Pacific touched 115% and then fell back to 113%. The lack of inside support encouraged the bears to sell the list generally erally and prices worked downward to the lowest of the day in many instances. Offerings were small, trading almost ceasing at times, but liberal concessions had to be made to find a buyer. Among the stocks weakest in the early afternoon were Union Pacific, Manhattan, St. Paul, Northern Pacific, Atchison, Rock Island, Steel and Missouri Pacific which were anywhere from 2 to 8½ points below the high prices of the morning. Union Pacific fell on extreme 121/2 by intervals of a point between

Elgin, Ilis., May 13 .- On the board of trade today 350 tubs of butter were offered. No sales were made. The market was quoted steady at 18°c.

LONDON STOCK MARKET.

London, May 14 .- According to present plans, J. Pierpont Morgan will not go to America just now.

The situation on the stock exchange today was the most remarkable known, as far as Americans were concerned. There was absolutely no trading, the arbitrage people not dealing, and quotations were entirely nominal.

The optimistism with which yester-day's settlement of Northern Pacific was hailed disappeared in the general realization that it was only temporary. Steps are being taken to form an arbitration committee to relieve stock brokers of their difficulties in connection with the Northern Pacific affair.

A representative of one of the largest houses, said: "Unless the Morgans and Kuhn, Loeb & Co. accept some such arbitration nothing can save the London market from a serious smash. The temporary arrangement, it is believed, may over. run the next settlement, but not much longer. It is thought the arbitrators prevent failures and meet the views of Mr. Morgan and Kuhn, Loeb & Co."

LONDON WOOL AUCTION.

London, May13.—The wool auction sales today showed 13,050 bales offered. A good selection was presented. Merino and cross-breds were in good supply and sold freely. Several lots were taken by America. Cape of Good Hope and Natal scoured wools were in better lemand and there were several withdrawals. Victorias were in strong de mand and competition was brisk. The sales will close on May 21.

EUSINESS AND REALTY.

Edward D. Miller, the broker, has purchased the Hyde residence, 48 west North Temple street, from Frank H. Hyde, for \$7,500. It is stated that the purchaser intends to erect a fine new

residence upon the property which is 7x20 rods. Architect Dallas has already received thirty bids for the contract to erect the new University buildings.

It now transpires that the Manhattan Fire Insurance company, which went into the hands of a deputy sheriff a few days ago, in New York, as announced in the "News" of Saturday, had an office in Salt Lake. Its agents were Stout and Sorenson, It carried between fifty and sixty policies. These will doubtless be reinsured with other companies.

The annual stockholders' meeting of the Utah Commercial and Savings Bank was held at 11 o'clock today; 1595 shares out of 2,000 were represented and the old board of directors consisting of the following was unanimously re-elected W. F. Armstrong, P. W. Madsen, Thomas W. Jennings, Samuel McIntyre, Albert Fisher, John R. Winder, Jr., Joseph William Taylor, O. H. Pettit and James H. Moyle. The report of the cashler was said to be very satisfactory and was received and adopted.

It was stated this afternoon, on reliable authority, that Beardsley's Tavern would reopen about June 1st. Mr. Beardsley, it is understood, will go to San Francisco to see the people whom he was to become associated there and make arrangements to return to Sait Lake. Mr. Beardsley has been assured all necessary support, by his friends, both financial and otherwise. "The reopening of the tavern" said one of his friends this afternoon "is an absolute certainty in my opinion."

The Annual Oil company today filed articles of incorporation with the coun articles of incorporation with the county clerk with a capital stock of \$20,000 in \$1 shares. The president of the company is W. M. Spencer; vice-president, W. J. Berry; secretary, Ed. E. Bush, and the other directors are Fred. C. Berry and John H. Durst.
